

Our Values: A Civic Compass

“Our North Star is the Constitution — unchanging in principle, guiding in purpose.”

Summary

SeniorsUnited is guided by a simple truth: democracy works best when we keep faith with the Constitution and with each other. Our values are the compass that steadies us in turbulent times. They remind us that patriotism means promises kept, fairness protected, and responsibility shared across generations. These principles shape everything we do — from advocacy to action.

SeniorsUnited is not a political party and does not endorse candidates.

We are a grassroots, all-volunteer nonprofit (501(c)(4)) dedicated to protecting America’s safety net and strengthening our democracy.

These values are our compass—acts of constitutional patriotism rooted in the Declaration of Independence and the Constitution. They guide our movement, our advocacy, and our work with volunteers and donors. We evaluate policies—never personalities.

What We Stand For

We the People

Government belongs to the people, not parties or special interests. Every American voice matters. Patriotism means keeping our oath to the Constitution and the consent of the governed.

Open, Secure Voting

Voting is a patriotic duty. Make it convenient and secure—early and mail options with safeguards—and oppose undue barriers that reduce lawful participation.

Fair Maps & Real Representation

Fair play is patriotic. Voters should choose leaders, not the other way around. We support independent/neutral redistricting and oppose partisan gerrymandering.

Liberty and Justice for All

Patriotism defends equal protection under law. Every citizen deserves freedom, safety, and the same rules—no one above the law.

Keeping America's Promises

A patriotic nation keeps its word. Social Security, Medicare, Medicaid, SNAP, and veterans' benefits are solemn commitments that honor work, service, and dignity.

Fiscal Responsibility

We love our country enough to tell the truth about costs. Stewardship means living within our means and opposing unfunded tax cuts or spending that add to the debt—no matter who proposes them.

Common Sense First

Practical problem-solving is patriotic. We reject rigid ideology and use facts, testing, and real-world results to fix what's broken.

Security at Home and Abroad

The common defense and domestic tranquility are national duties. Safe communities, a principled defense, and alliances that protect freedom keep America strong.

Responsibility to Posterity

Patriotism looks forward. We owe our children and grandchildren opportunity, prosperity, and freedom—not reckless debt or decline.

Shared Sacrifice, Shared Prosperity

Neighbors help neighbors. Helping those in need isn't charity—it's the American way. We rise together when everyone contributes.

How We Apply These Values

We assess every policy and bill for voter access, fair representation, kept promises, fiscal sustainability, evidence of real-world results, and respect for rights and public safety—then publish plain-English summaries so supporters can take action with confidence.
